64 new traditional Holmes adventures in three simultaneously published volumes In 2018, MX Publishing presented Parts XI and XII of this acclaimed and ongoing series, Some Untold Cases. Now that theme is revisited with 64 new Sherlock Holmes adventures that explore those many tantalizing references to some of Holmes's other cases, as mentioned in The Canon. "Somewhere in the vaults of the bank of Cox and Co., at Charing Cross, there is a travel-worn and battered tin dispatch box with my name, John H. Watson, M.D., Late Indian Army, painted upon the lid. It is crammed with papers, nearly all of which are records of cases to illustrate the curious problems which Mr. Sherlock Holmes had at various times to examine" - Dr. John H. Watson So wrote Dr. Watson in "The Problem of Thor Bridge" - and ever since, Sherlockians have been seeking to know more about these tales from the legendary tin dispatch box. While Watson's original Literary Agent only edited the pitifully few sixty stories that make up the original Canon, there have since been literally thousands of traditional adventures about the true Sherlock Holmes - and yet there will never be enough! Throughout the original Holmes Canon, there were hints and teases of other intriguing cases - The Giant Rat of Sumatra . . . The Abernety Tragedy . . . The Manor House Case. Watson mentions well over one-hundred of these, which have collectively come to be known as The Untold Cases. Now, once again MX Publishing brings us sixty-four of these adventures in three simultaneously published volumes, with all royalties going to support the Stepping Stones School at Undershaw, one of Sir Arthur Conan Doyle's former homes. Join us as we return to Baker Street and discover more authentic adventures of Sherlock Holmes, described by the estimable Dr. Watson as "the best and wisest . . . whom I have ever known." Each volume contains forwards by Otto Penzler, Roger Johnson, Stepping Stones School, Steve Emecz, and David Marcum, as well as stories by the following contributors: Marcia Wilson, Brenda Seabrooke, Stephen Herczeg, Tracy J. Revels, Kevin P. Thornton, Thomas A. Burns, Jr., Dick Gillman, Jayantika Ganguly, John Davis, DJ Tyrer, Harry DeMaio, Arthur Hall (2 stories), Susan Knight, David Marcum, Craig Stephen Copland (2 stories), Gayle Lange Puhl, John Lawrence, John Linwood Grant, and Paula Hammond, and a poem by Joseph W. This fourth selection of articles by Professor Kuttner complements the volumes previously published by Variorum. Its subject is the history of the Church law of the Middle Ages, and the manner in which it has been studied. One group of articles is particularly concerned with the broader implications of medieval law, with its role in the history of doctrines and ideas: other sections focus on the history of the Glossators in modern research, and on the canonists of the period following the Decretals of Pope Gregory IX - the Glossa Ordinaria and the works of St Raymond of Peñafort and Johannes Andreae form specific areas of interest. As in the previous volumes, there is an extensive section of 'Retractionses, recording the results of further research and assiduously detailing and commenting upon work done in the field since the articles were first published. To facilitate access to all this material, important indexes have also been provided.Cette quatrième collection d'articles du Professeur Kuttner complète les volumes préablement publiés par Variorum. Laurent Joubert was an important figure in the medical world of the French Renaissance. Born in 1529, he became a doctor at age 29 and shortly thereafter was appointed personal physician to Catherine de Medici and later became physician to three French monarchs. Joubert was an educator as well as a physician, and he wrote several works of medical literature, including his most controversial work, Erreurs populaires. While the work focuses on popular misconceptions concerning medicine and physicians in France in the 1500s, it also represents a wealth of information on the social, economic, political, and religious worldviews that framed and thus supported the development and conduct of medical science. Gregory de Rocher's skill as a translator brings this highly readable and very funny book to life. Many topics central to Joubert's thesis in the 1500s remain contemporary themes in the popular and scholarly literature of the 1980s.

A funny and entertaining history of printed books as told through absurd moments in the lives of authors and printers, collected by television's favorite rare-book expert from HISTORY's hit series *Pawn Stars*. Since the Gutenberg Bible first went on sale in 1455, printing has been viewed as one of the highest achievements of human innovation. But the march of progress hasn't been smooth; downright bizarre is more like it. *Printer's Error* chronicles some of the strangest and most humorous episodes in the history of Western printing, and makes clear that we've succeeded despite ourselves. Rare-book expert Rebecca Romney and author J. P. Romney take us from monasteries and museums to auction houses and libraries to introduce curious episodes in the history of print that have had a profound impact on our world. Take, for example, the Gutenberg Bible. While the book is regarded as the first printed work in the Western world, Gutenberg's name doesn't appear anywhere on it. Today, Johannes Gutenberg is recognized as the father of Western printing. But for the first few hundred years after the invention of the printing press, no one knew who printed the first book. This long-standing mystery took researchers down a labyrinth of ancient archives and libraries, and unearthed surprising details, such as the fact that Gutenberg's financier sued him, repossessed his printing equipment, and started his own printing business afterward. Eventually the first printed book was tracked to the library of Cardinal Mazarin in France, and Gutenberg's forty-two-line Bible was finally credited to him, thus ensuring Gutenberg's name would be remembered by middle-school students worldwide. Like the works of Sarah Vowell, John Hodgman, and Ken Jennings, *Printer's Error* is a rollicking ride through the annals of time and the printed word.
