HWM Taylor & Francis

Excel 2007 Programming by Example with XML and ASP offers a hands-on approach for those looking to extend and customize Excel functionality. From recording a simple macro and writing VBA code to working with XML documents and using ASP to access and display data, this book takes you on a programming journey that will change the way you work with Excel. Learn how to automate spreadsheet tasks with macros; write VBA code to program PivotTables, generate charts, build dialog boxes, and customize the Ribbon; handle errors and debug programs; create hyperlinks and publish HTML files. Retrieve data from the web directly into Excel; develop and manipulate smart tags using XML.

Popular Photography AVA Books (UK) Ltd.

Covers the basics of digital glamour, such as what kind of camera you need, making and shooting in a home-studio, and how to shoot digital glamour shots outdoors. Chapters in the book cover commercial glamour - adverts, fashion and magazine features - lingerie, pin-ups, the nude, fetish and more futuristic glamour shots. It also includes a discussion of post-production and touching up. Structured around the three main areas of shooting the image, enhancing the image and enjoying the image, the Digital Photography series makes the world of digital imaging simple while concentrating on the photographic aspect. With the aid of inspirational images we are shown in easy steps how the image was taken, manipulated on the computer and output in the desired form.
